PROFESSIONAL PROFILE

Motivated final-year Computer Science student at Adekunle Ajasin University with practical experience building web applications
using **Python**, **Django**, **HTML**, **CSS**, and **JavaScript** through personal projects. Familiar with user authentication, database models,
form handling, and responsive interfaces. Seeking a junior developer opportunity to contribute to real-world projects, strengthen
technical skills, and grow within a software development team.

TECHNICAL SKILLS

Programming: **Python**, **JavaScript**
Frontend: **HTML5**, **CSS**, responsive web design
Backend: **Django**, **Django ORM**
Databases: **SQLite**, **PostgreSQL**
Tools: **Git**, **GitHub**, **Visual Studio Code**

Development concepts: CRUD operations, authentication, database relationships, form validation, debugging, deployment basics

PROJECTS

FareCheck Nigeria — Transport Fare Tracking Application
Personal project | Python, Django, HTML, CSS, JavaScript
• Built a web application intended to help commuters check transport fares across Nigerian routes.
• Implemented user registration and login functionality.
• Developed route search and route-detail pages and database models for routes and fare submissions.

• Worked on displaying minimum, maximum, and average fare statistics.
• Connected Django models, views, templates, and URL routes.
Personal Portfolio Website
Personal project | Django, HTML, CSS, JavaScript
• Created a website to present development skills and projects.
• Built a Django contact form to collect and store visitors' messages.
• Worked on email notifications and contact form handling.
• Created responsive layouts and interactive elements, and deployed the site using Render.

EDUCATION
Adekunle Ajasin University — B.Sc. Computer Science
2023–2026 | Final-year student
TRAINING AND CERTIFICATIONS

Full Stack Web Development Program
Cophild ICT Training and Certifications
Completion Date: 15 September 2026

PRACTICAL DEVELOPMENT EXPERIENCE
Independent Web Development Projects
• Practicing backend development with Python and Django and building responsive interfaces with HTML, CSS, and JavaScript.
• Working with database models, application logic, and user authentication.
• Using Git and GitHub to manage and showcase project code.
• Learning deployment, production configuration, and debugging through hands-on work.
canvas
CORE STRENGTHS
Problem-solving • Willingness to learn • Communication • Teamwork • Time management • Attention to detail • Adaptability
CAREER OBJECTIVE
To secure a junior developer opportunity where I can apply my current technical skills, contribute to useful software projects,
collaborate with experienced developers, and continue developing as a Full Stack Web Developer
